***XXXII International Conference  
PROBLEMS OF DECISION  
MAKING UNDER  
UNCERTAINTIES  
(PDMU-2018)  
August 27-31, 2018***

***ABSTRACTS***

***Prague,  
Czech Republic***

**Kyiv  
2018**

## CONTENT<sup>1</sup>

<b>Akhvlediani N.</b> The necessity of assessment criteria in selecting foreign language textbooks .....	10
<b>Akhvlediani Z.</b> Modern lexicography and technologies .....	11
<b>Aliyev R.</b> Asymptotic behavior of ergodic distribution of the renewal reward process with a stronger subexponential distributed component .....	11
<b>Bakhrushin V.</b> Decision-making on assessment of higher education institutions under uncertainty .....	12
<b>Bakuridze M., Bakuridze A.</b> On Fourier trigonometric series.....	13
<b>Bagratioti I.</b> Modern educational technologies for decision-making in law and social activities .....	14
<b>Bayramov V., Aliyev R.</b> On the renewal-reward process with regularly varying component .....	17
<b>Bekesiene S., Hoskova-Mayerova S.</b> Creative expression in military organizations: a case of lithuanianarmed forces .....	18
<b>Beridze Z., Geladze N.</b> Algorithms of wireless network security.....	19
<b>Beridze Z., Shavadze J., Geladze M.</b> Main tasks of wireless network security .....	20
<b>Bharth H., Kiedrowski J., Sant J., Thomas J.</b> Understanding bleb formation - a machine learning approach .....	21
<b>Bilynskyi A., Chorny R., Kinash O.</b> About bankruptcy of insurance company in case of large payments .....	22
<b>Bondarchuk Y.V.</b> About general systemic principles in DSS .....	23
<b>Bratiichuk M.</b> Sequential test for exponential model .....	24
<b>Chabanyuk Ya., Khimka U., Kinash A.</b> Generator of stochastic volatility with semi-Markov switching.....	25
<b>Chabanyuk Ya.M., Khimka U.T., Rosa W.</b> Stochastic approximation procedure for doffusion process with semi-Markov switching .....	26
<b>Chachanidze G., Nanobashvili K.</b> The scoring or ranking model for assessing the quality of education .....	27

---

<sup>1</sup> *The abstracts are publishing in authors edition*

<b>Chechelnitski A.</b> The properties of the stationary behavior of the parallel network .....	28
<b>Chomaxashvili N.</b> Predicting and decision-making in medicine .....	29
<b>Correll R., Kumar A., Maul A.</b> Exposure risk posed by inorganic contaminants in drinking water .....	31
<b>Didmanidze I.</b> On some problems of information overload for decision making process .....	33
<b>Didmanidze I., Didmaidze M., Imnaishvili G.</b> Student load credit system .....	36
<b>Didmanidze I., Kakhidze R., Didmanidze D.</b> On some problems of information overload for decision making process .....	37
<b>Didmanidze I., Kakhiani G., Didmanidze D., Dumbadze Z.</b> Task of modeling the single-line neural networks.....	38
<b>Didmanidze I.Sh., Motskobili I., Zakaradze Z.</b> Forecasting tasksfor the specialists' demand .....	39
<b>Didmanidze I.Sh., Tsitskishvili G.D., Kuchava M.Sh.</b> Importance and problems of marine transportation.....	40
<b>Diasamidze Y., Givradze O.</b> Generating sets of the complete semigroups of binari relations defined by semilattices of the pentagon .....	41
<b>Dolenko G.O., Manovytska D.O., Iliencko V.V.</b> System optimization problems with objectives based on the sixth Kondratiev cycle predictions .....	42
<b>Dolenko G., Manovytska D., Viniarska K.</b> Dynamic features of ukrainian hryvnia exchange rate variation .....	43
<b>Drin S.S.</b> Marketing object model with cululative effect.....	44
<b>Dzhanelidze O.</b> Mathematical model of pumping of deep centers by the energy of longitudinal acoustic oscillations and its computer software .....	45
<b>Florenko A., Shchestyuk N.</b> Minimax problems for random fields from observations in areas with peculiarities .....	46
<b>Geladze D.</b> Problematic-situational experience .....	47

<b>Gorjeladze I.</b> Occasionalisms in english, georgian and russian languages and its computer software.....	48
<b>Grdzlishvili N., Lалуashvili G.</b> Concept of formation of stimulating information base for the decision making in the tourism sector in regions of Georgia and local self-governments.....	49
<b>Gritsenko V., Tymashova L.</b> Models and algorithms of smart enterprise .....	51
<b>Gubarev V., Romanenko V., Miliavskiy Y.</b> Identification of cognitive maps under uncertainties .....	52
<b>Guliyev A.A., Aliyev N.A., Ibrahimov N.S.</b> On a fundamental solutions of some fractional differential equarons.....	53
<b>Hmyria A.U.</b> Distribution of expenses in logistic cooperative games with restricted cooperation .....	55
<b>Iliash K.A., Veres M.M.</b> Creating an automated system for trading on the stock exchange using technical analysis.....	56
<b>Ivokhin E., Adzhubey L., Mickhailov I.</b> About mathematical model of advertising diffusion process .....	58
<b>Ivokhin E., Apanasenko D., Naumenko Yu.</b> About hybrid mathematical model of information diffusion process .....	59
<b>Jafarova H., Safarova U., Aliyev R.</b> Analysis of the relationship between usdx and gold prices in R.....	60
<b>Jikia D.</b> The indicator mechanism of city’s social-economic potential management contributing to the decision-making.....	61
<b>Jikia S.</b> The types of the decision-making in the electronic office .....	62
<b>Kakashvili G.</b> Object-oriented, decision-making matrix supporting web-page classification .....	64
<b>Kapustian O.A., Nakonechnyi O.G., Podlipenko Yu.K.</b> Minimax estimates of solutions of the first order linear hyperbolic systems under uncertainties.....	65
<b>Karkashadze I.</b> Systemic approach to making decisions in the service strategy of airport passengers .....	66
<b>Kekenadze A., Korchilava T.</b> Benefits and risks, development prospects of cloud computation.....	68

<b>Kharitonashvili M.</b> Interdisciplinary modelling of teaching, as the basis of the perfect decision-making .....	71
<b>Kokovska Ya., Kyrylych V., Venherskyi P.</b> Method of characteristic for the equations of formation of water flows in rivers with uneven bottom.....	72
<b>Krak Iu., Kasianiuk V., Volchyna I.</b> Inflection grammar dictionary development for system of automated translation into sign language.....	74
<b>Krak Iu., Kudin G.</b> Optimal synthesis of the features vectors for data classification .....	75
<b>Kudin G.I., Zinko T.P.</b> Hyperplanes clusters in spaces of signs vectors.....	76
<b>Lebedev E.A.</b> Analysis of stationary regime for the $[SM   GI   \infty]^r$ queueing networks .....	78
<b>Lebedev E.A., Rozmarytsia A.A., Pavliuk M.V.</b> On normalized distance between samples and its application in medicine .....	79
<b>Loseva M., Prishlyak A.</b> Optimality of simple Morse-Smale flows with singularities on the boundary of surface .....	80
<b>Luita A.V., Semenov V.V.</b> A novel method for the bilevel optimization problem.....	81
<b>Lukovych O.V., Rozora I.V., Lukovych T.V.</b> Analysis and modeling of households deposit dollarization in Ukraine .....	82
<b>Lysenko V., Koval V., Samkov O., Komarchuk D.</b> Computer-integrated systems for information support and automatization of the complicated objects .....	83
<b>Mammadzada A.M., Aliyev N.A., Ibrahimov N.S.</b> Solution of Cauchy problem for third discrete derivative additive-multiplicative-poverativo derivative equation .....	84
<b>Martsenyuk V.P., Vakulenko D.V., Vakulenko L.O., Kutakova O.V., Lesiv V.V.</b> Primary diagnostic information system of cardiovascular diseases by arterial oscylography methods.....	86
<b>Martsenyuk V., Sverstiuk A., Andrushchak I.</b> Immunosensor model based on lattice difference equations.....	87

<b>Mashchenko S.O., Kapustian D.O.</b> A problem with a type-2 fuzzy goal set.....	88
<b>Meskhidze Z.</b> Multilevel access to information systems using qr codes.....	89
<b>Mikautadze M.</b> Management decision-making in the city’s budget formation process .....	90
<b>Nakonechnyi O., Ivohin E., Pashko A., Zinko P., Pampukha I., Savkov P.</b> Decision support system for the analysis of information influence in social networks .....	91
<b>Nakonechnyi O.G., Zinko P.M., Shevchuk I. M.</b> Estimation of influence for models of information spreading process under uncertainty .....	93
<b>Neubauer J., Odehnal J.</b> Notes on dynamic panel data analysis in terms of modeling determinants of military spending.....	94
<b>Nikitchenko M.S., Shkilniak O.S., Shkilniak S.S.</b> Properties of logics of general non-deterministic quasiary predicates .....	95
<b>Nikitin A.V.</b> Analysis of the mathematical model of information with external impulse influence.....	96
<b>Pankratova N.D., Pankratov V.A.</b> Modelling of complex hierarchical systems on the basis of fuzzy cognitive maps .....	98
<b>Pashko A.</b> The statistical simulation of the self-similar traffic.....	99
<b>Pryshchepa O.V.</b> On optimization of $M/M/c$ queue with the limited number of retrials and constant retrial rate .....	101
<b>Rozorinov H.</b> A threshold methods for signal compression.....	102
<b>Sant L.</b> Modelling customer behaviour in online gambling .....	103
<b>Sant L.</b> Viable posteriors for Lévy priors .....	103
<b>Sedlačík M.</b> The multidimensional statistical analysis of insurable value assessment process .....	104
<b>Semeniuta M., Sherman Z.</b> Decision making using mathematical models based on labeled graphs .....	104
<b>Semenov V.V., Koliechkin V.O.</b> Multicriteria combinatorial optimization problems with inexact data of objectives .....	105

<b>Semenova N.V., Lomaha M.M.</b> Properties of sets solutions of quasi convex problems of lexicographically lexicographic optimization.....	106
<b>Senio P.S.</b> Two-sided approximation finding of a function based on mathematics of functional intervals.....	107
<b>Shabelnik T.V.</b> Approaches to optimize investment risks .....	109
<b>Shakhno S.M., Shunkin Yu.V., Babjak A.-V.I.</b> Gauss-Newton-Potra method for nonlinear least squares problems with operator decomposition.....	110
<b>Shakhno S.M., Yarmola H.P.</b> Some methods for solving nonlinear least squares problems .....	111
<b>Shatyрко A., Puzha B., Novotna V.</b> Uncertainty conditions and time delay in Lanchester’s combat models.....	112
<b>Shcherbatyy M., Shcherbata I.</b> Proper orthogonal decomposition for ordinary differential equations and partial differential equations.....	113
<b>Sherozia N.</b> Planning of a lesson with application of information technology .....	114
<b>Slabospitsky A.S.</b> Recurrent time-varying parameter estimation by least squares method with least deviations from ‘attraction’ points for bilinear dynamic systems under uncertainties .....	115
<b>Šmerek M.</b> Special type of distribution problems .....	116
<b>Stolyarenko N.</b> Construction of the jobs batches for optimal mode in flexible manufacturing.....	117
<b>Tejkal M., Michálek J.</b> Markov model for description of the intensity of the terrorist threat .....	118
<b>Timofeeva N.K.</b> Problems of artificial intelligence, combinatorial optimization and argument of the objective function .....	118
<b>Turmanidze T.</b> Mathematical model of dependence between pressure and deformation of concrete and its computer software.....	119
<b>Tymashov O., Jakovlev Ju.</b> Embedded security for internet of things .....	120
<b>Usar I., Makushenko I., Protopop Yu.</b> Rate of convergence of stationary distribution for retrial systems with queue .....	121

<b>Vergunova I.M.</b> Main properties of operators in the problem of surface pollution distribution in agrolandshaft .....	122
<b>Veselík P.</b> Application of quantitative methods for risk assessment in a selected medical facility .....	124
<b>Vlasyuk A.P., Ilkiv I.V.</b> Mathematical modelling of salt transfer to system of horizontal drains in zones of complete and incomplete saturation under nonisothermal conditions.....	125
<b>Voloshchuk S.</b> Price option modeling on the base of Black-Sholes equation .....	126
<b>Yarova O.A., Yeleyko Ya.I., Dziekanski P.</b> The evolution of financial synthetic indicators .....	127
<b>Yatsenko V., Garashchenko F., Petrovich V., Trebina N.</b> Modeling and optimization of cryogenic-optical gravimeters .....	128
<b>Zaychenko Y., Zaichenko H.</b> Multicriteria decision-making problems under fuzzy conditions .....	129
<b>Zub S.S.</b> Mathematical model of a rigid-body dynamics in an axially symmetric magnetic field .....	130
